📍 8 Priory Road, High Wycombe, HP13 6SG

An enthusiastic and highly-motivated software developer and athlete with a recent Bachelor's degree in Computer Science from the University of Birmingham. With keen interests in robotics, coding, esports and building programs and apps, I'm looking for new challenges and receptive to opportunities in a wide range of sectors.

PROGRAMMING SKILLS

- **Languages:** Java, Python, Javascript, HTML, CSS, SQL, C++
- **Professional Tools:** Git, Google Cloud Console, Slack, Terminal, VSCode, JetBrains IDEs, Adobe Photoshop, Sony Vegas, Discord API, Microsoft Office Suite

EDUCATION

- **BSc (Hons) Computer Science** The University of Birmingham
Grade 2:1 *Graduated July 2023*
 - **Favourite Modules:** Machine Learning (95%) , Intelligent Robotics (75%) , Software Design Study (80%) , Robot Programming (79%)
 - **UoB Kabaddi Club:** First team captain, Social Media Manager and Social Secretary
- **Royal Grammar School** RGS High Wycombe
GCSE and A-Levels *September 2011 - July 2017*
 - **A Levels:** AAA - English Literature, Maths, Computer Science
 - **GCSE:** A* in Maths and English, 8 As, 1 B
 - **Achievements:** Head Prefect and Ambassador of Computer Science, Recipient of Computer Science Award and Placement at Villiers Park Residential

WORK EXPERIENCE

- **Kabaddi Athlete/ Sports Ambassador** September 2019 - Present
England Kabaddi Union
 - **Athlete and Ambassador:** Represented England internationally and Birmingham City in the UK. Completed multiple TV and radio interviews as an ambassador for the sport
 - **Coaching and Competitions:** Organised a successful national tournament and coached multiple UK teams
- **Social Media Manager** May 2017 - July 2018
Carnival Merchandise
 - **Content Creation:** Managing the company's social media accounts and making scheduled posts showcasing a selected product every week, creating the posts in Photoshop and reviewing content analytics to post for maximum engagement
- **Private Tutor** Sept 2016 - Present
Self-employed
 - **Tutoring:** Delivering high quality lessons to a total of 15 students, teaching Maths, Physics and English. Tailored individual lesson plans and created past papers to personally support each student

EXTRA-CURRICULAR AND PROJECTS

Started playing the Indian sport Kabaddi at University and qualified for the England Squad. Played international tournaments in Bangladesh, Italy, Poland and Scotland as well as the Birmingham Bulls in the British Kabaddi League (April 2022), winning the tournament, filmed in the UK and broadcasted by the BBC on IPlayer.

I am always looking to develop my skills with independent projects. Two of my favourites are a Letterboxd intergration bot for Discord and "Nani" - a wordle-esque Pokemon game - both available on my website and github below.
